Canto C.O.D.E 3.0

Hack Packet

About the Event

WHEN
July 16 - 20, 2017

WHERE
Punta Cana,
Dominican Rep.

WHO
You & your team

PIEDATA
Think Caribbean Innovation

Phases

1
Virtual Hackathon

Starts: June 17, 2017
Ends: June 24, 2017

2
Pre-Acceleration

Starts: June 25, 2017
Ends: July 3, 2017

3
Growth Hack & Presentation

Starts: July 3, 2017
Ends: July19, 2017

PIEDATA
Think Caribbean Innovation

Phase 1 - Virtual Hackathon

Due: June 24, 2017

Theme: Communication

Our world is changing rapidly. We see a huge impact of new disruptive technologies, for example, communication service providers, artificial intelligence, increasingly smarter chatbots. There is a need for instant, personalized and understandable communication on demand.

People, Service Providers and Businesses all face challenges with communication!!!

Question: How can we make use of the latest technologies and business concept innovations to improve communication in different industries across the Caribbean?

PIEDATA
Think Caribbean Innovation

Solution

WEB   OR   **MOBILE**

Each team must use a combination of the 2 of the below platforms

1) Pandora Bot (COMMS)
   https://www.pandorabots.com

2) Kandy (COMMS)
   https://www.kandy.io/

3) Tensorflow (AI)
   https://www.tensorflow.org/

4) Watson
   https://www.ibm.com/cloud-computing/bluemix/watson

5) Social Media
   Facebook, Twitter, WhatsApp, etc.

PIEDATA

Submit a product proposal and prototype for your idea.

Should include:

a. A product presentation that matches the theme of Communication
b. Market need for the solution
c. High Level Architecture Diagram of technologies that will be used in your solution
d. Mockups and Prototypes of the proposed solution (Web solutions should be hosted on IBM Bluemix or Heroku for demo and Mobile Apps should provide apk or equivalent)
e. Planned timeline on development to having a functional product to present in Dominican Republic

Please note:

a. You must provide piedata with access to your repository (shamir@piedata360.com and sergio@piedata360.com, ayodele@piedata360.com)
b. If you have any questions please reach out to the Hack Coach
    i. Shamir Saddler (shamir@piedata360.com)

Tips:

Repository for hosting: https://bitbucket.org/

Architecture Diagrams: https://www.visual-paradigm.com/tutorials/data-flow-diagram-dfd.jsp

Timelines: http://creately.com/Gantt-Chart-Software

Advice and Support:

- Ask PIEDATA questions
- Think big! In C.O.D.E the possibilities are endless
- Be Creative, this is your investment opportunity!
